

Dear Senator _____ :

I urge you to work with the electric cooperatives as you craft climate change and energy legislation. As the U.S. Senate debates this issue, I am asking you to fight for a bill that is:

- **FAIR** – Climate change legislation needs to recognize regional differences in how electricity is produced. I should not be penalized because of where I live.
- **AFFORDABLE** – Any climate change plan must keep electric bills affordable for all Americans.
- **ACHIEVABLE** – Climate change mandates must be realistic to ensure long-term success.

Given these tough economic times, keeping electric bills affordable must be a high priority. Please insist on legislation that's fair and affordable.
