Our Mission

Provide safe, reliable electricity and quality services to the communities we serve by enhancing their quality of life through innovation and sustainable economic development.

We're Thankful for Your Membership

by: *Keith Mathews, General Manager*

“Feeling gratitude and not expressing it is like wrapping a present and not giving it.”

In the spirit of this quote by author William Arthur Ward, I'd like to take this opportunity to express my gratitude for your membership in our electric cooperative. Because of your connection to Southeastern Indiana REMC, we are able to make our community a better place.

I generally use this space to provide updates on new projects and developments, and report out on the progress of ongoing initiatives. We share these updates so that all of our consumer-members have a window into our priorities, progress and challenges. However, during this season of giving thanks, I think it's equally important to let you and other consumer-members of Southeastern Indiana REMC know just what an impact you have on our co-op and the greater community, likely in ways you may not even realize.

As part of the cooperative business model, one of our core principles is “Concern for Community.” While our priority is always to provide safe, reliable and affordable energy, we view our role in the community as a catalyst for good.

We are purposeful in partnering with local groups for programs and events that benefit our members.

We work closely with our local schools to provide safety demonstrations and award college scholarships through the Southeastern Career Center. Southeastern Indiana REMC also participates in an annual Youth Tour where we take our community's brightest young people to Washington, D.C. for a week-long immersion to experience democracy in action. The trip is inspirational for many students, and we are both humbled and honored to be a part of this leadership development journey. Ultimately, the larger community benefits from these programs because of you! You empower the co-op through your membership and through your participation in and support of these programs.

When you attend co-op events, alert us to problems, provide suggestions online or to our employees, you help us improve operations and thereby better serve the larger co-op membership.

Because we are locally governed by members of our community, we are able to get a first-hand perspective on community priorities, thereby enabling us to make

Operation RoundUp® Grant

We're Thankful for Your Membership continued

more informed decisions on long-term investments, such as high-speed broadband, community solar programs, equipment and technology upgrades and electric vehicle programs.

We are thankful that our co-op board members carve out time to attend important training sessions, participate in planning meetings and keep abreast of industry trends. This investment in time results in better informed advisors that serve the co-op's interests in a way that our consumer-members expect and deserve.

On a more personal note, we appreciate the countless acts of kindness our lineworkers and other employees receive when they are working in severe weather and dangerous conditions. Our employees are thankful for your patience and consideration when we are trying to restore power during challenging situations and prolonged periods.

Southeastern Indiana REMC was originally established 79 years ago to bring electricity to our area when no one else would. The cooperative is a reflection of our local community and its evolving needs. Together, let's continue making our corner of the world a better place. We can't do it without you, and for that, we're thankful for your membership.

Winter TLC for your HVAC system

Clean or change your air filter
every 60 to 90 days.

Have a qualified HVAC
professional give your
system a **tune-up annually**.

ACT NOW for rebates of
up to \$1500 on a new,
energy-efficient model!

rebates
up to
\$1500

Contact your Team Up
cooperative for details

22 kW Generac Unit

\$5,200 Installed

\$300 Maintenance Fee

Receive a \$50 load control credit for
each of the six months the REMC
implements load control measures.

For \$50, your REMC Energy Experts will conduct a home energy audit for you; identifying ways to maximize your savings and allow your HVAC system to operate at maximum efficiency.

During an audit, which takes about two hours to complete, our energy experts will carefully inspect your home, identifying areas that need to be updated or repaired. A FLUR device will be used to detect hot and cold spots, which indicates air movement in and out of your home.

Simple measures such as caulking, insulation, or sealing around doors and windows can save you money and make your home more energy efficient. As an added incentive, your REMC marketing program offers rebates for insulation, duct sealing, HVAC systems and much more.

Now is the time ...

Schedule your HOME ENERGY AUDIT and HVAC WINTER CHECKUP

If you have a contractor make energy saving improvements to your home, as suggested by our energy experts; your REMC will refund the \$50 home energy audit fee!

Have your HVAC inspected by a qualified HVAC expert and your REMC will give you a \$50 credit!

Give us a call – we will be glad to explain the marketing program and schedule a home energy audit.

Protect your lifestyle 24/7
against power outages
