

ecobee Smart Thermostat Program

Thank you for participating in Southeastern Indiana REMC's ecobee Smart Thermostat Program. Once you receive your smart thermostat, you have 30 days to install the device. If you do not do so you will be charged the cost of the thermostat. Once the thermostat is activated you MUST contact SEI REMC to be added to the program.

(Fill out the Installation Verification form and mail in to the office, or complete and submit the form on our website) The thermostat will be stabilized by Southeastern Indiana REMC during peak usage periods. However, as the homeowner, you can override the stabilization at any time. You will receive notifications when peak periods are scheduled. The thermostat has an app supported by ecobee that allows you to remotely access your thermostat from anywhere at any time.

Account Holder Name

Account Number

Service Address (Street Address, City, State, Zip)
