Take a step toward **BETTER HEALTH**

**Schedule your mammogram and put
your well-being first**

Your health matters to us. That's why SEI REMC is partnering with the St. Elizabeth Mobile Mammogram Program to offer convenient screenings right here at our office.

Whether it is time for your regular checkup or your first screening, this is a simple way to take care of yourself in a familiar and supportive setting.

DATE: Monday, October 13, 2025

TIME: 8 a.m. to 12 p.m.

LOCATION: SEI REMC

**Appointments are required.
Call 800-737-4111 ext 233 to
schedule today.**

Early detection plays an important role in long term health. *Let this be the reminder you need to make yourself a priority.*

ELECTRICAL SAFETY TIP

Protect What Matters Most:

Simple steps to help prevent
home fires

Tip: Plug appliances directly into wall outlets and use extension cords only for short-term needs.

Reminder: Keep space heaters and other heat sources at least three feet away from anything that can catch fire.

Check: Test your smoke alarms monthly and make sure they're installed on every level of your home and outside each bedroom.

Is Your HVAC System Ready for the Cooler Months?

Stay ahead of the season
and earn money back
with SEI REMC's
HVAC TUNE-UP REBATE.

A well-maintained HVAC system is key to keeping your home comfortable and your energy bills in check. As cooler weather approaches, now is the perfect time to schedule a professional tune-up. Seasonal maintenance helps your system run more efficiently, extends its lifespan and reduces the risk of unexpected breakdowns when you need heat the most.

To make it easier, Southeastern Indiana REMC offers a Residential HVAC Tune-Up rebate to help cover the cost. Members can receive **up to \$50 back** for having their system professionally serviced. It's a smart way to prepare your home for the months ahead while saving energy and money.

Apply now at seiremc.com/hvactuneuprebate and get your HVAC system ready for the season.

MAXIMIZE YOUR HVAC EFFICIENCY: Keep your system running smoothly between tune-ups

Even with professional maintenance, your HVAC system needs a little attention throughout the season. Simple habits at home can make a big impact on how efficiently it performs.

Clean or replace your air filters regularly, and avoid blocking vents with furniture or rugs. Consider using ceiling fans to help circulate warm air more evenly and take advantage of natural sunlight by opening curtains during the day to warm your home without using extra energy.
