

Thank You

to the lineworkers who power our lives

Every time you flip a switch, charge your phone, or relax in the comfort of your home, you have our dedicated lineworkers to thank. Southeastern Indiana REMC's Operations Department works tirelessly to maintain and improve the electric system, ensuring safe, reliable power for our members — no matter the weather or time of day.

These highly trained professionals brave storms, extreme heat, and freezing temperatures to restore power quickly and safely. Their work goes beyond repairs — they also build and maintain the infrastructure that keeps our communities running, from installing new power lines to integrating smart grid technology and renewable energy solutions.

As we celebrate Lineman Appreciation Day this month, we invite you to join us in recognizing the men and women who keep the lights on. Their dedication, skill, and hard work power more than just homes and businesses — they power lives.

Want to show your appreciation?

Drop a thank-you message on our [Facebook page](#) or send a note to our lineworkers at contact_us@seiremc.com. Your words mean the world to those who work tirelessly to keep the lights on!
