CAPITAL CREDITS, another example
of the cooperative difference.

REMC TO REFUND \$2.3 MILLION IN PATRONAGE CAPITAL

The Board of Directors has approved the retirement of \$2.3 million in capital credit refunds to its members for the year 1998 and a portion of 2019.

This marks the 15th year in a row that SEIREMC has returned capital credits. In all, SEIREMC has returned \$28,043,785.32 to its member-owners since 1939.

Approximately 21,850 active members receiving distributions will see a credit on their March bill statement and another 8,550 inactive members or beneficiaries, with a minimum refund of \$5 and a valid address on file, will receive a mailed check.

Giving money back is one of the most unique parts of the cooperative business model. Doing so, follows one of our seven cooperative principles – Members' Economic Participation – through the rotation of capital. Capital rotation is also required to meet IRS requirements to maintain our 501 C12 tax status. The rotation of capital helps the REMC

target our optimum equity range, which generally falls between 40% and 60%. If cash is available and equity is high in the range, a capital credit refund to members helps control the systems equity.

For more information, visit the Patronage Refund page on our website at www.seiremc.com or call 800-737-4111.
